

Takes one to know one.

From pharmacists, nurses and techs to analysts, coders and billers – we've been in your shoes, working in each and every role within your care settings. Take our Senior Implementation Consultant Jeston Whitsell.

He has experience in retail pharmacy, hospital pharmacy and as a home infusion pharmacist, so he knows what you're up against. He even worked for a small start-up pitching in as a pharmacy tech, pharmacy manager, driver and biller, so he's fluent in all of your daily workflows and knows that the right implementation can take you from zero to 100.

We get you. And that's how we get the implementations and automation just right for your pharmacy business — from dispensing medications quickly and safely to remaining profitable.

Hear more from our experts on how we've built a solution to better meet your needs and those of your patients.

Let's take you from zero to 100
